Publication Information

The Vietnam Journal of Community Medicine (VJCM) is a fully open access journal publishing double-blinded peer-reviewed publication, which offers the Original Articles, Review Article, Case Report, and Short Communication dealing with: preventive medicine, health manpower, disease prevention, health care services, health promotion, and health insurance programs.

VJCM publishes bimonthly by the Institute of Community Health. As a fully open access publication, the journal will provide maximum exposure for published articles, making the research available to all to read and share. A corresponding print version is also available.

Any suitable manuscript followed the journal's scope and author guideline will be undergone double-blinded peer-reviewed by at least one independent expert in the field. The Handling Associate Editors make an editorial decision, which is subject to endorsement by the Editor-in-Chief.

Further Information is available through the journal website: <https://tapchihcd.vn>
